

QUICKSILVER Heavy-Duty Inflatables are ideal for boating applications where a little more space and strength are required. These boats are perfect for scuba diving and rescue teams, for instance, and can carry up to eleven people. Divers love the soft tubes and low freeboard that make them easy to roll off and re-board, even in rough water. Tougher than ever and ready to take a beating in almost any condition, whatever your needs:

Heavy-Duty XS

Specifications	380	430	530
Max. persons	6	8	11
